AI Product designer with 3+ years of experience in fintech, public safety, and art-tech, shaping AI-driven, intuitive, and scalable experiences across web, mobile, and TV. Passionate about designing inclusive, multimodal interactions at the intersection of emerging tech—leveraging predictive intelligence, behavioral insights, and thoughtful design craft to proactively solve user problems.

PROFESSIONAL EXPERIENCE

Product Designer

[Qapita](#) | Equity Management Platform

Jun 2024-Aug 2026

Hyderabad, India

Product Strategy, Product Thinking & GTM Alignment

- Designed and shipped **end-to-end experiences** for key features like Payment Windows, Reports, Jobs and Exercise Workflows, powering \$55B in equity management for **2,400+ companies** & contributing to **US GTM initiatives** & partnership with Charles Schwab
- Collaborated** with **cross-functional teams** to assess **system-level feasibility** to **design scalable** intuitive experiences.
- Led **product strategy** by **identifying AI opportunities** to resolve admin pain points, shaping the product roadmap.

User Research

- Spearheaded the **research plan, strategy, and execution**—conducted 15+ stakeholder interviews and applied **Critical Incident and other UX methods** to uncover operational pain points; synthesized insights using **MoSCoW** and **Kano analysis** to prioritize features.
- Analyzed support tickets to identify recurring user pain points and prioritize high-impact design efforts.
- Conducted **remote usability tests** with self-serve clients to validate concepts and inform early design iterations.

User Experience Design

- Conducted **heuristic evaluation** and **HTA** to resolve usability issues and simplify workflows, **reducing setup time** by 25%.
- Revamped the **employee-side experience** for 300,000+ users by enhancing pathfinding and user guidance.
- Enhanced exercise and settlement usability, improving **task success** and **onboarding** for **100+ ESOPDirect** clients across industries.

Visual, Interaction Design, Design System & Accessibility

- Created high-fidelity prototypes via **co-design** and **cognitive walkthroughs** to ensure clarity in **complex financial workflows**.
- Designed **new interaction patterns** to enhance **user guidance** and align with **evolving design systems and business goals**.
- Introduced new features using **product nudges**, increasing user engagement and reducing abandonment by **20%**.
- Designed **responsive mobile and tablet interfaces** to meet industry standards and **reduce adoption barriers**.
- Created **accessible experiences** with keyboard shortcuts, larger click targets, and touch-friendly controls to enhance usability.
- Enhanced the design system by implementing **design tokens** to improve **efficiency**, ensure **design-development consistency**.

Design Handoff, Metrics & Product Release Notes

- Delivered **well-structured design files** with detailed **annotations** to ensure clarity in interactions and effective developer **handoff**.
- Conducted **regular syncs and design audits** during the build phase to preserve design intent and ensure consistency before deployment.
- Defined and tracked metrics** in **Mixpanel** to optimize UX through data on product tours, customization, adoption, and conversion.
- Simplified **product release notes** to convey the value while ensuring consistency with brand voice.

DesignOps, Leadership & Team Enablement

- Standardized terminology and introduced **design metrics** to bring structure and data-driven decision-making to design operations.
- Consolidated design work across the team and initiated regular **design standups** to improve collaboration, visibility, and alignment.
- Documented the **Employee Design Process** to clarify workflows and support **team scalability and onboarding**.
- Supported new **designer onboarding as a buddy**, guiding them through the **platform, workflows, and team integration**.
- Empowered an **intern** with customized growth plans, design critiques to **build confidence and develop design rationale**.
- Established **Design OKR framework** (Strategic and Tactical tiers) to align design priorities with product roadmap; participated in **interview panels** for **5 Product Designer hires**, evaluating portfolio and design-thinking rounds.

AI Experience Designer

[NinjaHire](#) | AI-powered recruiting platform that transforms staffing operations with autonomous agents.

Interaction Design, Growth and Monetization UX

- Designed the **interaction layer** for NinjaHire's **AI sourcing agent** — human-legible criteria inputs, recruiter feedback loops, escalation paths, and override controls.
- Owned end-to-end UX for the **agentic sourcing experience**, from concept through shipped product, designing workflows that let recruiters steer sourcing criteria instead of accepting black-box outputs.
- Designed **monetization UX** including sign-up **pricing visibility**, **credit usage tracking**, and **upgrade prompts** — surfacing cost and consumption clearly to support informed upgrade decisions.
- Shortened time-to-value** by moving **candidate search earlier in the onboarding** flow, cutting the steps between sign-up and first result.
- Translated the sourcing agent's matching logic into **transparent, human-legible interactions** — surfacing **why** a candidate matched to rebuild recruiter trust in AI-generated shortlists.
- Collaborated with the founder and engineering team to align the **sourcing agent's behavior** with **recruiter mental models** and real hiring workflows.
- Designed **onboarding flows** to drive recruiter **trust** and **adoption** of the agentic sourcing tool from first use.

Associate UX Designer

May 2023 – May 2024

Hyderabad, India

User Research

Sri Cherry Kotamreddy

College Park, MD, US | [linkedin.com/in/sricherrykotamreddy](https://www.linkedin.com/in/sricherrykotamreddy) | <https://cherryvvy.vercel.app> | +1 (240) 927-8804 | sricherry.tweety@gmail.com

- Conducted **foundational research** using AEIOU, interviews, and journey mapping to uncover needs of auction participants and emergency responders.
- Analyzed **competitors** and studied **workflows** of police, EMS, and fire departments to tailor UI for both industries.
- Optimized **interactions** for **high-stress, time-sensitive field response** and auction bidding by **identifying friction points**.

UX Design

- Designed end-to-end experiences for **Museo** (art auction) and **Aegis** (first responder alerting) across **Web, Mobile, Tablet, and TV**.
- Created **service blueprints**, stakeholder maps, and flows to **visualize systems, spot inefficiencies**, and design intuitive experiences.
- Designed for both **lean-back TV interfaces** (Museo) and **priority-driven field interactions** (Aegis), supporting seamless task execution and navigation across devices.

Visual & Interaction Design

- Developed **high-fidelity prototypes** and **design systems** using atomic principles, scalable across **TV, mobile, and tablet**.
- Introduced gestures like **“Raise hand to bid”** and designed **high-contrast, large-type TV** alert visualizations.

Accessibility

- Addressed **TV-specific challenges** (distance readability, content density, input constraints), ensuring inclusive and effective designs.
- Designed for **touch, keyboard, and remote-based input** to support diverse user environments—including **TV and field operations**.
- Ensured **single-hand operability** and responsiveness on mobile devices for on-the-go usability.

Collaboration

- Collaborated closely with developers to align interaction design with technical feasibility of **Mapbox, Leaflet, and Google APIs**.
- Delivered annotated flows and states, ensuring smooth multi-platform implementation during engineering handoffs.
- Supported consistency across teams by **building design systems** and clearly documenting design patterns for scalability.
- Worked in **Agile** squads with **Jira** for sprint planning and design delivery tracking.

Business Goal Alignment

- ATSC 3.0-powered applications showcased to **138,700** global attendees at **CES 2024**.

UI/UX Design Intern

[XIGA](#)

Jan – Apr 2023

Hyderabad, India

- Boosted user engagement by 10% with micro-animations and enhancements on careers and contact pages. Optimized responsiveness of [Logituit's](#) website to ensure seamless user experience across all devices - Mobile, Desktop and Tablet

EDUCATION

MASTERS IN HUMAN COMPUTER INTERACTION

University of Maryland, College Park

Maryland, College Park, United States

2026 - 2028

Masters of Arts in Psychology

Indira Gandhi Open National University

Delhi, India

2023-2025

Bachelor in Multimedia (BMM), Animation

Loyola College

Chennai, India

2020-2023

ACADEMIC CERTIFICATIONS AND TECHNICAL SKILLS

- **Certifications:** An Introduction to **Accessibility and Inclusive Design** University of Illinois Urbana-Champaign | Google UX Professional Certificate | **Graphic Design Specialisation** by Calarts | Introduction to **Augmented Reality and ARCore** by Google | Certification - **AI for Everyone** by DeepLearning.AI.
- **Technical Skills:** Illustrator | Figma | Figjam | Adobe XD | Adobe Fresco | After Effects | Premium Rush | Miro | InDesign | Autodesk Maya | Spline | Microsoft Office 365 | Jira | Confluence | Mixpanel | Azure | Canva | Google Suite | Slack | Loveable | Vercel | Claude
- **English Proficiency :** IETLS Academic, **overall band score - 8**

HONOURS, AWARDS & LEADERSHIP

- Crafting engaging and informative articles on user experience topics for publication on [Medium](#) 2024-Present
- Qualified for SF/Dubai networking and pitching event with Incite, an Ingredient Analysis App-**Build Space S4** (Erevald) Aug, 2023
- Awarded for **valuable contribution to students' council activities** by **Dean of Students**, Loyola Students' Council. Apr, 2023
- **Sports Secretary, Loyola Students' Council** - Organized **15+ cultural and sports events** with a **footfall of 10,000**. 2022-2023
- **Vice President, Entrepreneurship Development Cell, Loyola College:** Organized 10+ info sessions with entrepreneurs 2022
- Participated in Lexus Design Awards India'22, under the social impact category - Ingredient Analysis app Dec 2022
- Qualified (out of 70 participants) in the Final round: Vision, a design competition- IIT Delhi Nov 2022
